

BILL WARREN

Senior Product Leader • AI & Platform Strategy
Hillsborough, NC | (804) 513-3921 | w.s.warren12@gmail.com
[LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Product leader with 7+ years of experience building and scaling AI-powered platforms, financial tools, and community engagement systems from 0-to-1. Led the product, engineering, and design organization at Summon (Game7), shipping an AI-driven platform that grew to 500K+ users completing 28M+ tasks. Deep technical fluency spanning AI/ML product development, smart contracts, and full-stack architecture — paired with a JD from Duke Law that sharpens stakeholder communication, contract negotiation, and strategic thinking. Proven ability to drive cross-functional teams and negotiate complex partnerships in fast-moving, ambiguous environments.

CORE COMPETENCIES

Product Strategy & Vision • **AI/ML Product Development** • **0-to-1 Product Building**

Data-Driven Decision Making • Stakeholder Management • Agile & Scrum • Gamification & Behavioral Design • Platform & Marketplace Strategy • User Research & Discovery • Roadmap Planning • Vibe Prototyping

PROFESSIONAL EXPERIENCE

Head of Product | **Game7 / Summon**, Remote

July 2023 — Present

Led product, engineering, and design teams for Summon, an AI-powered community engagement platform primarily serving gaming and decentralized finance ecosystems.

- Defined product vision and roadmap for Summon's evolution from manual questing tool to AI-driven engagement platform, introducing agent-based landing page generation, task creation, automated data analysis, and intelligent gamification mechanics — reducing onboarding overhead by 90%.
- Scaled the Game7 community platform to 500K+ registered users who completed 28M+ tasks across gaming partner campaigns over a 9-month period.
- Designed and shipped a full-stack gamification system including Quests, Leaderboards, Rewards Loot Boxes, Token Staking, Token Sinks and progressive engagement mechanics grounded in behavioral economics to drive 30%+ monthly user retention while achieving company goals.
- Partnered directly with gaming studios and finance protocols to scope and deliver activity-based campaigns tied to measurable growth KPIs including user acquisition, retention, and partner ROI.
- Built and led a cross-functional team of product managers, engineers, designers, and QA, implementing agile practices and shipping iteratively in fast-moving Web3 and AI landscapes.
- Architected a connector and quest builder framework enabling no-code campaign creation for non-technical partners, dramatically expanding the platform's addressable market.

Executive Steward, Product | **Opolis**, Remote

August 2021 — June 2023

Product leadership for a decentralized employment organization providing payroll, benefits, and compliance infrastructure for independent workers.

- Led creation of a smart contract-based payroll funding system that reduced processing costs by 90% and has since facilitated \$30M+ in crypto payroll transactions.
- Formed a strategic partnership and built a no-code legal entity creation flow, cutting onboarding drop-off by 3x and accelerating new member activation.
- Managed the development and launch of a governance token staking dashboard on an L2 network, supporting 1,000+ token stakers across thousands of unique staking transactions.

- Drove product discovery through qualitative user interviews, quantitative analysis of product data, and competitive landscape research to identify high-impact opportunities.
- Partnered with engineering and marketing to align feature development and application refactoring with business and growth objectives; collaborated with marketing on go-to-market for new releases.

Product & Tokenomics | DAOhaus, Remote

August 2020 — December 2022 (Part-Time)

- Coordinated product strategy across a distributed community of developers, designers, and strategists to scope and build next-generation permissioned DAO creation and management platforms.
- Co-developed DAO creation smart contracts for the DAOhaus v2 app with over \$400M in DAO activity.
- Created documentation, demos, and materials to drive adoption and community growth.
- Contributed to the innovative \$HAUS token economic and governance design.

Founder & CEO | Peeps Democracy, Remote & New York, NY

November 2018 — August 2021 (Spun out of ConsenSys, Acquired by Opolis)

- Founded and led a venture-backed startup building decentralized organization platforms, validating and rapidly iterating through three product versions in 20 months as markets rapidly shifted.
- Created Pool-Party, the first DAO platform to integrate DAO smart contracts with a decentralized lending protocol on Ethereum, processing \$150K+ across 6+ DAOs.
- Raised ~\$500K in venture funding and successfully negotiated the company's acquisition by Opolis, delivering a 2x return to investors.

Corporate Associate | WilmerHale, New York, NY

2016 — 2018

- Advised technology startups and growth-stage companies on venture financing, licensing agreements, corporate governance, and M&A transactions.
- Developed deep expertise in startup operations, cap table management, and regulatory compliance that directly informs product strategy in regulated and emerging technology sectors.

E D U C A T I O N

Duke University School of Law — Juris Doctor, Magna Cum Laude

Co-Founder, Duke Law Tech Lab | Focus: Corporate & Startup Law

Davidson College — Bachelor of Arts

Honors Thesis in Religion & Literature

B O A R D & C O M M U N I T Y L E A D E R S H I P
